Research Summary

I study problems at the intersection of machine learning, optimization, and control theory. My recent work focuses on developing a principled understanding of using machine learning models for data-driven control, with specific emphasis on applications in robotics.

Employment History

2024 – Now	Assistant Professor Ming Hsieh Department of Electrical and Computer Engineering Thomas Lord Department of Computer Science (by courtesy) University of Southern California
2019 – 2023	Research Scientist Google DeepMind Robotics New York, NY
2014 – 2019	Research Assistant Department of Electrical Engineering and Computer Sciences University of California, Berkeley
2011 – 2014	Research Assistant Department of Electrical Engineering and Computer Science Massachusetts Institute of Technology

Education

2014 – 2019	Ph.D., EECS , University of California, Berkeley Thesis title: <i>Sample Complexity Bounds for the Linear Quadratic Regulator</i> Advisor: Prof. Benjamin Recht
2011 – 2014	S.M., EECS , Massachusetts Institute of Technology Thesis title: <i>Fast Transactions for Multicore In-Memory Databases</i> Advisor: Prof. Samuel Madden
2006 – 2011	B.A., Computer Science , University of California, Berkeley B.S., Mechanical Engineering , University of California, Berkeley

Research Publications

Preprints

Talks

- 3/25 **On the Effectiveness of Generative Modeling for Planning and Control**
Computer Science Colloquium, University of Southern California
CRI Seminar, UC San Diego
- 2/25 **Shallow diffusion networks provably learn hidden low-dimensional structure**
Information Theory and Applications, 2025
- 2/24 **Towards instance optimal rates in learning from dependent data**
Information Theory and Applications, 2024
- 11/23 **Revisiting Energy Based Models as Policies**
Stanford Vision and Learning Lab, Stanford University
- 6/23 **jax4dc Tutorial**
Learning for Dynamics & Control Conference, 2023
- Sp. 23 **The foundations of machine learning for feedback control**
Computer Science Colloquium, UC Riverside
EECS Colloquium, UC Irvine
Computer Science Colloquium, University of Chicago
ECE Colloquium, University of Michigan
ECE Colloquium, University of Southern California
- 2022–23 **Learning from many trajectories**
Information Theory and Applications, 2023
Learning Theory for Control Workshop, IEEE Conference on Decision and Control, 2022
Machine Learning in Feedback Systems (CS 6784) Guest Lecture, Cornell University
Intelligent Robot Motion Lab, Princeton University
- 2022–23 **Introduction to High Dimensional Probability (Part I and II)**
Google Brainiversity Lecture Series
- 11/22 **Independent learning from sequential data**
Foundations of AI Seminar, University of Southern California
- 6/21 **Learning and Control with Safety and Stability Guarantees for Nonlinear Systems**
Foundations and mathematical guarantees of data-driven control summer school, ETHZ-EPFL
- Fa. 20 **Learning Stability Certificates from Data**
CAN Lab, New York University
Research Seminar, TU Darmstadt
- 12/19 **Concentration Inequalities for System Identification**
Tutorial Session, IEEE Conference on Decision and Control, 2019
Seminar, Lund University
- 10/19 **Finite-time Analysis of Approximate Policy Iteration for the Linear Quadratic Regulator**
INFORMS Conference, 2019
- 7/19 **Minimax Lower Bounds for H_∞ -Norm Estimation**
American Control Conference, 2019
- Su. 19 **The Gap Between Model-Based and Model-Free Methods on the Linear Quadratic Regulator: An Asymptotic Viewpoint**
International Conference on Continuous Optimization, 2019
Conference on Learning Theory, 2019

Talks (continued)

- Sp. 19 **Safe and Reliable Reinforcement Learning for Continuous Control**
Amazon Research, Palo Alto
Facebook AI Research, Menlo Park
Robot Locomotion Group, Massachusetts Institute of Technology
Machine Learning Seminar, University of Washington
Google DeepMind, London
Google Brain Robotics, Mountain View
Computer Science Colloquium, Princeton University
Microsoft Research, New York City
- 6/18 **On the Approximation of Toeplitz Operators for Nonparametric H_∞ -norm Estimation**
American Control Conference, 2018
- 5/18 **Finite Sample Guarantees for Control of an Unknown Linear Dynamical System**
Stanford Information Systems Laboratory, Stanford University
- Fa. 17 **A Lyapunov Analysis for Accelerated Block Gauss-Seidel**
Simons Institute, UC Berkeley
- 8/17 **Breaking Locality Accelerates Block Gauss-Seidel**
International Conference on Machine Learning, 2017
- 5/17 **Convergence and Geometry of Non-convex Matrix Sensing**
SIAM Conference on Optimization, 2017
- 6/16 **Low-rank Solutions of Linear Matrix Equations via Procrustes Flow**
International Conference on Machine Learning, 2016
- 2013 **Speedy Transactions in Multicore In-Memory Databases**
Symposium on Operating Systems Principles, 2013
Microsoft Research, Redmond
- 8/13 **Processing Analytical Queries over Encrypted Data**
International Conference on Very Large Data Bases, 2013

Awards and Honorable Mentions

- 2023 **Best Student Paper Award**, Conference on Robot Learning 2023
(co-author on paper with A. Ren, lead student author)
- 2021 **Outstanding Reviewer**, NeurIPS 2021
- 2018 **Google PhD Fellowship in Machine Learning**
- 2011 **CRA Undergraduate Research Award Honorable Mention**

Teaching

- EE660 **Mathematical Foundations of Machine Learning**, University of Southern California
Semesters: Sp. 2024, Fa. 2024
- CS189 **Introduction to Machine Learning (GSI)**, University of California, Berkeley
Semesters: Fa. 2016, Fa. 2018

Service

- Ongoing **Reviewer**, NeurIPS, ICML, ACC, CDC, AISTATS, COLT, CoRL, L4DC, and JMLR
Program Co-Chair, Learning for Dynamics and Control Conference, 2026
Area Chair, NeurIPS, 2025

Service (continued)

- 2025 **Program Committee**, Learning for Dynamics and Control Conference, 2025
- 2024 **Co-Organizer**, Southern California Control Workshop, Fall 2024
 Session Organizer, Information Theory and Applications, 2024
 Session: *Statistical learning for analysis and design of control systems*
- 2023 **Area Chair**, NeurIPS, 2023
- 2022 **Mentor**, Google CS Research Mentorship Program
- 2018 **Mentor**, BAIR Undergraduate Mentoring Program
